The Deputy Minister of Lands

Government Building

Victoria, B . C.

Dear Sir,

Regarding our pre-emptions No 54 & 57 Goldstream Dist, we came to the conclusion that, in packing over a packtrail four miles long,we never shall be able to make a success in farming. Therefor we intend to build a 8 foot wagonroad. Starting at the 18 mile post on Sooke Rd. and going through the following Sections No. 60 &o Sooke D. 57 Sooke D. & 56 Gold. D. The road up to the line of our pre-empt.will be about 1½ miles long.

We are willing to undertake the job, which means 5 or 6 months work if you will meet us with a small grant of $ 250. which would just about cover the expenses of explosives and board. Of course we shall not expect to get the money until the work is completed. We shall always be on the spot in case you wich to send the raod superintendent to see the grad.

As we are very anxious to get this road started we beg to favour us with an urly answer.

We remain yours truly

"L. Glinz"

Sooke Rd.
